Blink-182, The Story So Far, No Pressure,
Knuckle Puck, Youth Fountain

Bio:

Tell All Your Friends - about the punk rock anthems of your youth and all the unforgettable moments you associate with them.

Inspired by the Tony Hawk's Pro Skater game soundtrack, forgotten MySpace bands, and overly loud club concerts, the band came together in 2023. Driven by melancholy and a thirst for action, they quickly formed their own sound: melodic punk rock with influences from pop punk, emo, and post-hardcore. Their rousing songs combine catchy melodies, energetic punk riffs, and lyrics that stick. The band bundled all these elements together on their first EP, "Washed Ashore," in 2024.

Since then, **Tell All Your Friends** has brought their songs to the stages of clubs and festivals across Northern Germany - and beyond. Sweat, loud singalongs, and a boisterous atmosphere characterized the early years of the band's history.

Driven by all their shared experiences, the band has big plans for 2026: a new EP with six mature songs will be released in summer. They'll also be holding shows in Oldenburg and Bremen to celebrate the release.
